STRATEGY DESCRIPTION

The imaxx Canadian Dividend Plus Fund's investment objective is to achieve long term capital growth with the potential for monthly income by investing primarily in dividend-paying common and preferred shares of Canadian corporations. For diversity, the Fund may also invest in fixed income securities, investment trust units and shares of global corporations.

The fund's portfolio is deeply diversified. The fund is invested primarily in equity securities of Canadian corporations. Up to 30% of the fund's assets may be invested in foreign securities. Fixed income securities may also be included to enhance income, manage volatility and/or liquidity, or to exploit risk-adjusted return opportunities across the capital structure.

The imaxxFunds are mutual funds offered pursuant to a prospectus. The information contained herein is an overview only and is qualified by the more detailed information contained in the prospectus. The prospectus contains important information about the fund, including its investment objective and strategies, investment risks, purchase options, applicable management fees, performance fees, other charges and expenses. Please read the prospectus carefully before investing. The amount of risk associated with any particular investment depends largely on your own personal circumstances including your time horizon, liquidity needs, portfolio size, income, investment knowledge and attitude toward price fluctuations. Investors should consult their financial advisor before making a decision as to whether this fund is a suitable investment for them. This communication should not be considered a solicitation to buy or an offer to sell securities of the fund. Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. The rate of return is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the mutual fund or returns on investment in the mutual fund.
